

Move Your Avatar

Move your avatar with your keyboard's arrow keys.

↑	—	Forward
↓	—	Backward
→	—	Turn Right
←	—	Turn Left
Shift	—	Run
Space	—	Unlock Camera

Alternatively, you can hover your mouse over a location and an icon of a person will appear. When you left click, your avatar will walk to the marker location.

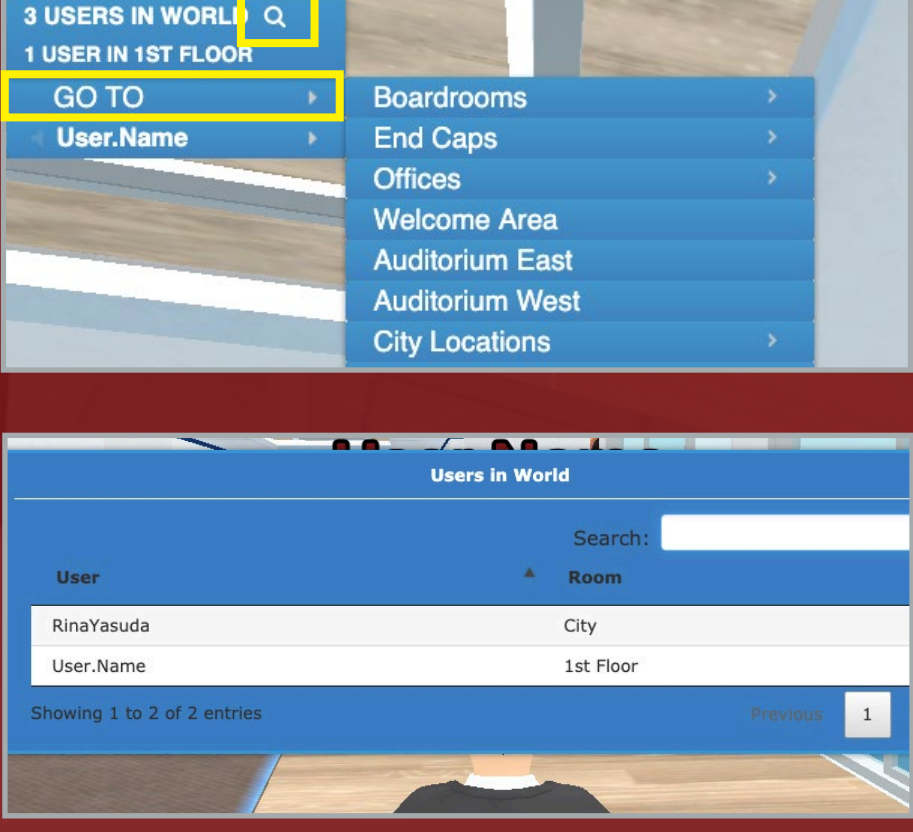

Press the Spacebar to unlock your camera. In this mode you can use your mouse to look around in all directions. Press Spacebar again to lock your camera behind your avatar.

Menu

In the top left corner of your screen there are several menus. Click the magnifying glass icon to show a list of all the users currently in the world and their location.

The **GO TO** menu lists all the rooms you can fast travel to. Simply click a room name to teleport.

Click your account name to reveal the User Menu where you can view your profile, customize your avatar, and use emotes like cheer, clap, and dance! Some emotes have shortcuts listed.

A useful function in the User Menu is the **Raise Hand** option. Click this action to place a raised hand icon over your avatar's head so others know you have something to say.

Voice Chat

When the program opens, your microphone will be muted. Click the microphone icon in the bottom left of your screen to turn on your microphone. When you speak, a speech bubble will appear above your avatar's head.

Alternatively, use push-to-talk by holding the numeral **1 key** to activate the microphone when needed.

Presentation Boards

To use a presentation board, simply click on it. A URL bar will appear in the bottom right corner of the screen. You can use it to visit webpages, upload files, share your screen, or share your webcam.

Please note, some presentation boards may be restricted for presenter or admin use only.
