

Windows Installation Guide

If your computer does not meet these requirements, we can make no guarantee that your computer will be able to access the Insyght Virtual World. In order to get the best performance, we suggest meeting or exceeding the “recommended requirements.”

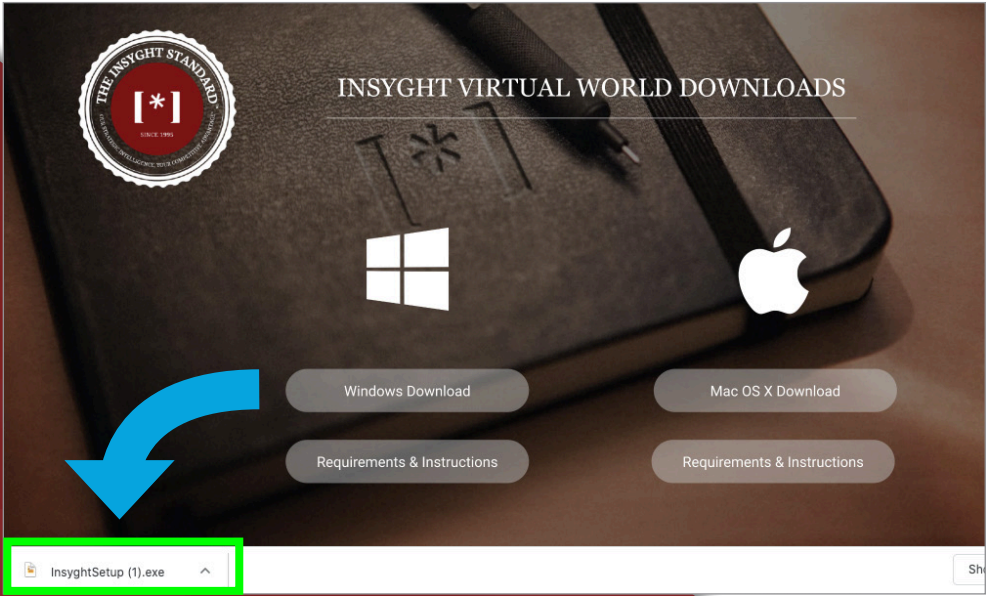

Minimum PC Requirements

- Windows 7 SP1+ or newer
- CPU: 1.8GHz Intel Core i5 or 2GHz AMD Phenom II
- Memory: 4GB
- Graphics: Graphics device with DX10 (shader model 4.0)
- Storage: 2.5GB

Recommended PC Requirements

- CPU 2.5GHz Intel Core i7 or 2.2GHz AMD A8
- Memory: 8GB
- Graphics: Dedicated graphics device with DX11 (shader model 4.0) and at least 1GB of on-board memory
- Storage: 2.5GB

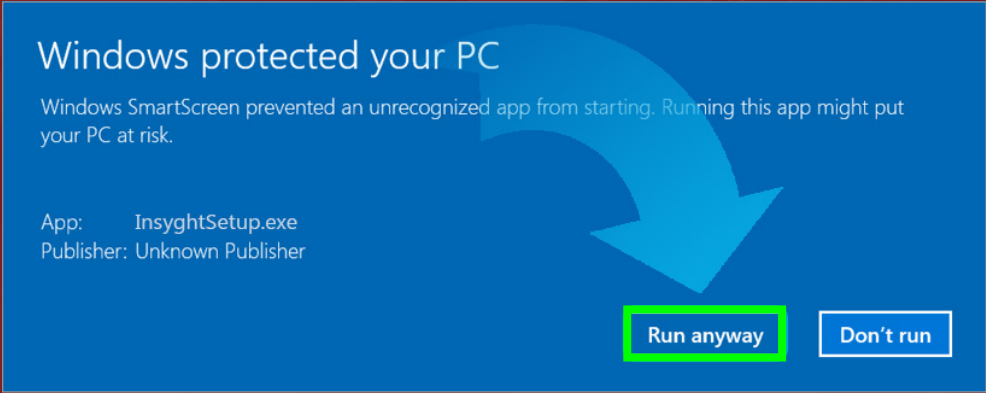

1. Visit www.insyght.com/virtualworld and click “Windows Download.” The file will appear at the bottom of your browser. Once the download finishes, click the file to run it.

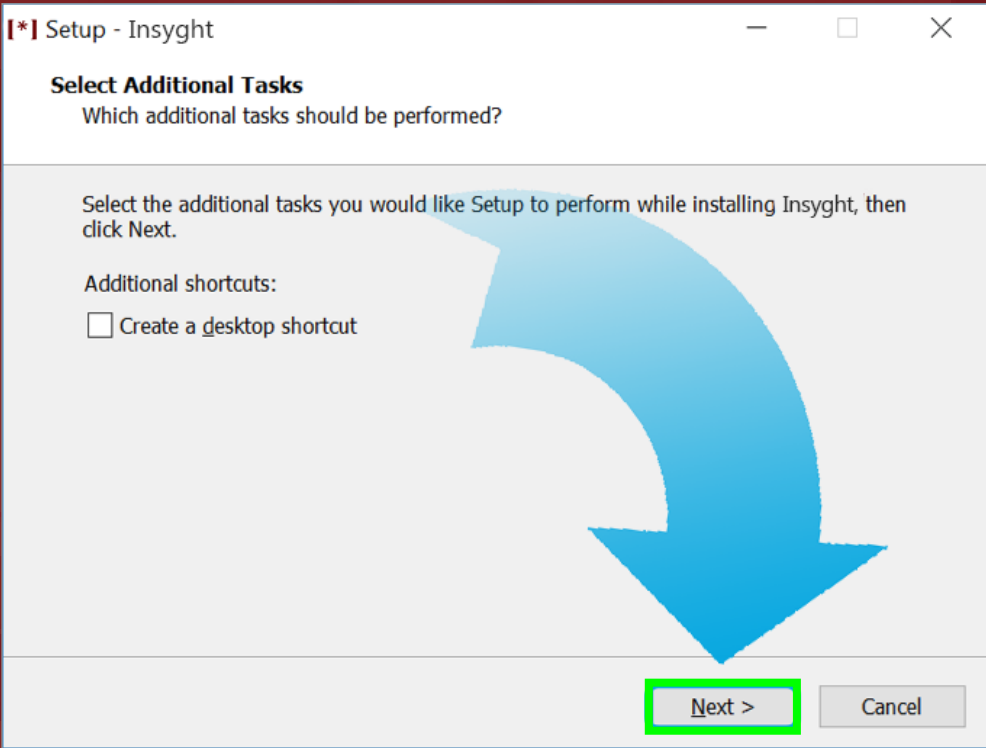

2. You may encounter the following screen, click “More Info.”

3. Choose “Run anyway.”

4. Last Warning: “Do you want to allow this app... to make changes to your PC?” Click “Yes.”
5. The Installation Process will begin. You can click Next, Install and Finish with the default settings. Create a desktop shortcut if you wish.

6. Launch Insyght - When clicking Finish in the installation process or from the Windows Start menu.
7. Next: Get in world!
